"Customer First" and "Quality"

Integrated Project Management Process

WHY PARI INFRASTRUCTURE

- The performance of any establishment depends on the way various components are put together. Therefore, Pari Infra focuses on detailed engineering in order to get the best out of the systems installed in the establishment.
- Further by taking overall responsibility for delivery schedules, there is much tighter control of deliverables at the site.
- If there is any area where Pari Infra is substantially ahead of the competition, it is in project management and execution. Projects are monitored with the latest project management techniques and supported by automation in ERP & MS Project.
- Our engineers and managers ensures that each installation is given the necessary supervision, making sure that checklists are in place, time schedules are adhered to and project coordination is well planned.
- Pari Infra gives immense importance to Quality. It has place continuous process monitoring parameters leading to ensuring quality & engineering process. It has documented professional site management practices which are followed devotedly by employees, contractors & business associates.
- Pari Infra treats safety as a very important parameter during project execution and place huge emphasis on following stipulated norms. All Projects executed by EIEL conform to strict, predetermined safety standards and procedures, only to ensure the safety of people and property.
- Pari Infra is committed to customer satisfaction and customer confidence - confidence that your project will proceed smoothly and objects will be achieved to your satisfaction.
